## 🌟 ABOUT THE ANIME

## About Lost in Starlight

*Lost in Starlight* is a visually stunning anime film that explores human connection in a vast, indifferent universe. Set against glowing nebulae and silent starfields, the story follows two individuals whose lives intersect across impossible distances.

Blending poetic storytelling with powerful visuals, the film asks a simple but profound question:

What does it mean to love someone you may never reach?

---

## STORY OVERVIEW

### Story

In a future shaped by interstellar travel, two strangers find their lives mysteriously intertwined. As they chase dreams across galaxies, their bond grows stronger—even as the universe seems determined to pull them apart.

Separated by light-years and limited by time, they must decide whether love is worth defying the laws of space itself.

This is not just a story about space.

It's a story about **waiting, hope, and holding on.**

---

## CHARACTERS

### Main Characters

#### The Dreamer

A quiet soul driven by curiosity and longing. Always gazing upward, searching for something beyond the visible sky.

#### The Wanderer

Independent, resilient, and emotionally guarded. A traveler shaped by distance and unanswered questions.

Together, they form a connection that challenges fate itself.
